# VIRGINIA BOARD OF ACCOUNTANCY RICHMOND, VIRGINIA

REPORT ON AUDIT FOR THE YEAR ENDED JUNE 30, 2003

# **AUDIT SUMMARY**

Our audit of the Virginia Board of Accountancy for the year ended June 30, 2003, found:

- the financial statements are presented fairly, in all material respects;
- no internal control matters that we consider material weaknesses; and
- no instances of noncompliance required to be reported under <u>Government Auditing</u> <u>Standards</u>.

The Honorable Mark R. Warner Governor of Virginia

The Honorable Lacey E. Putney Vice Chairman, Joint Legislative Audit and Review Commission

Board Members Virginia Board of Accountancy

We have audited the accounts and records of the **Virginia Board of Accountancy** as of and for the year ended June 30, 2003, and submit herewith our complete reports on financial statements and compliance and internal control over financial reporting.

# INDEPENDENT AUDITOR'S REPORT ON FINANCIAL STATEMENTS

We have audited the accompanying financial statements of the governmental activities and Special Revenue Fund (a major fund) of the Virginia Board of Accountancy as of and for the year ended June 30, 2003, which collectively comprise the Board's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Board's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As discussed in Note 1, the basic financial statements of the Virginia Board of Accountancy are intended to present the financial position and the changes in financial position of only that portion of the governmental activities and the aggregate remaining fund information of the Commonwealth of Virginia that is attributable to the transactions of the Board. They do not purport to, and do not, present fairly the financial position of the Commonwealth of Virginia as of June 30, 2003, and the changes in its financial position and its cash flows, where applicable, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the Special Revenue Fund of the Virginia Board of Accountancy as of June 30, 2003, and the respective changes in financial position thereof and the respective budgetary comparison for the Special Revenue Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The Management's Discussion and Analysis on pages 4 through 8 is not a required part of the basic financial statements, but is supplementary information required by the Government Accounting Standards Board. We have applied certain limited procedures, which consisted primarily of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

# INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING

In planning and performing our audit of the financial statements of the Virginia Board of Accountancy as of and for the year ended June 30, 2003, we considered internal controls over financial reporting and tested compliance with certain provisions of laws, regulations, contracts, and grants in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in <u>Government Auditing Standards</u>.

# Compliance

As part of obtaining reasonable assurance about whether the Board's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under <u>Government Auditing Standards</u>.

# Internal Control over Financial Reporting

In planning and performing our audit, we considered the Board's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

The "Independent Auditor's Report on Compliance and on Internal Control Over Financial Reporting" is intended solely for the information and use of the Governor and General Assembly of Virginia, the Virginia Board of Accountancy, and management, and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

# EXIT CONFERENCE

We discussed this report with management at an exit conference held on July 13, 2004.

# MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the Virginia Board of Accountancy, we offer readers of the Board's financial statements this narrative overview and analysis of the financial activities of the Virginia Board of Accountancy for the fiscal year ended June 30, 2003.

# Financial Highlights

The assets of the Virginia Board of Accountancy exceeded its liabilities at the close of the most recent fiscal year by \$872,337 (net assets), an increase of \$175,096 in comparison with the prior year. Of this amount, \$794,566 represents unrestricted net assets, which may be used to meet the Board's ongoing obligations to citizens and creditors.

At the close of the current fiscal year, the Virginia Board of Accountancy reported an ending fund balance of \$797,821, an increase of \$182,910 in comparison with the prior year. The entire balance is unreserved and is available for spending at the Board's discretion.

# Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Virginia Board of Accountancy's basic financial statements, which are comprised of three components: (1) the entity-wide financial statements; (2) the fund financial statements; and (3) the Notes to Financial Statements.

# **Entity-Wide Financial Statements**

The entity-wide financial statements are designed to provide readers with a broad overview of the Virginia Board of Accountancy's finances, in a manner similar to private-sector business.

The Statement of Net Assets presents information on all of the Board's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Board is improving or deteriorating.

The Statement of Activities presents information showing how the Board's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (i.e., earned, but unused vacation leave).

The entity-wide financial statements can be found on pages 10-11 of this report.

# **Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Virginia Board of Accountancy, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

# Governmental Funds

Governmental funds are used to account for essentially the same functions as governmental activities in the entity-wide financial statements. However, unlike the entity-wide financial statements, governmental

fund financial statements focus on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the entity-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the entity-wide financial statements. By doing so, readers may better understand the long-term impact of the Board's near-term financing decisions. Both the Governmental Fund Balance Sheet and the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Board has one governmental fund, which is a special revenue fund. Information on this fund is presented separately in the Governmental Fund Balance Sheet and in the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balance.

The basic governmental fund financial statements can be found on pages 12-13 of this report.

#### Entity-Wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the Virginia Board of Accountancy, assets exceeded liabilities by \$872,337 at the close of the most recent fiscal year.

By far, the largest portion of the Board's net assets (92 percent) are unrestricted, meaning they may be used to meet the Board's ongoing obligations to citizens and creditors. The remaining eight percent of the Board's net assets reflects its investment in equipment. The Board uses this equipment to provide services to citizens; consequently, these assets are not available for future spending.

# Virginia Board of Accountancy's Net Assets

Current assets Capital assets	2003 \$819,752 77,771	2002 \$641,660 85,564
Total assets	897,523	727,224
Current liabilities Long-term liabilities Total liabilities	21,931 3,255 25,186	26,749 3,234 29,983
Net assets: Invested in capital assets Unrestricted	77,771 <u>794,566</u>	85,564 611,677
Total net assets	<u>\$872,337</u>	\$697,241

At the end of the current year, the Board is able to report a positive balance for its net assets. The same situation held true for the prior fiscal year.

The Board's net assets increased by \$175,096 during the current fiscal year. About three quarters of this increase reflects the degree to which license fees and interest income have exceeded ongoing expenses. The remainder of this growth is due to a one-time reimbursement for transition costs reduced by a mandatory transfer to the state General Fund. Key elements of this change are as follows:

Virginia Board Of Accountancy's Changes In Net Assets

	<u>2003</u>	2002
Program revenues:		
Charges for services	\$496,066	\$459,358
General revenues:		
Interest income	26,552	23,024
Monetary penalties	3,800	6,200
Miscellaneous revenue	9,862	
Total revenues	536,280	488,582
Licensing and enforcement expenses	399,988	419,338
Increase in net assets before transfers	136,292	69,244
Transfers (Net)	38,804	627,997
Increase in net assets	175,096	697,241
Net assets - July 1	697,241	<del>_</del>
Net assets - June 30	<u>\$872,337</u>	<u>\$697,241</u>

Financial Analysis of the Entity's Special Revenue Fund

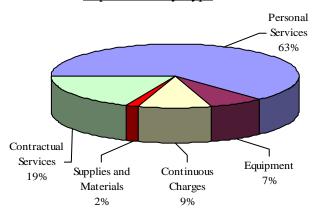

As noted earlier, the Virginia Board of Accountancy uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The focus of the Board's government funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Board's financing requirements and fee structure. In particular, unreserved fund balances may serve as a useful measure of the Board's net resources available for spending at the end of the fiscal year.

# \$900,000 \$800,000 \$700,000 \$500,000 \$400,000 \$200,000 \$100,000 \$ Revenues Expenditures Fund Balance

# Expenditures by Type

At the end of the current fiscal year, the Virginia Board of Accountancy's special revenue fund reported an ending fund balance of \$797,821. This entire amount is unreserved, meaning it is available for spending at the Board's discretion. As a measure of the fund's liquidity, it may be useful to compare the fund balance to total fund expenditures. The fund balance represents 203 percent of total expenditures.

The fund balance increased by \$182,910 during the current fiscal year. Key factors in this growth are as follows:

- Licensing revenue increased by \$36,708, primarily due to an increase in the number of business applications and renewals.
- Licensing and enforcement expenses decreased by \$109,494, as first-year costs for computerized systems, computer hardware, and office furniture were not repeated in the current year.
- The Board received a one-time reimbursement for transition costs reduced by a mandatory transfer to the state General Fund, increasing the fund balance by \$42,604.

The Board adopts an annual appropriated budget for its special revenue fund. A budgetary comparison statement has been provided for this fund to demonstrate compliance with the budget.

<u>Virginia Board Of Accountancy's</u> Changes In Fund Balance On Budgetary (Cash) Basis

	<u>Budget</u>	<u>Actual</u>	Variance
Revenues	\$586,000	\$536,031	\$(49,969)
Licensing and enforcement expenditures	<u>586,000</u>	388,181	197,819
Revenues over/(under) expenditures	-	147,850	147,850
Other financing sources/(Uses)		42,604	42,604
Net change in fund balance	-	190,454	190,454
Fund balance - July 1	448,197	629,048	180,851
Fund balance - June 30	<u>\$448,197</u>	<u>\$819,502</u>	<u>\$371,305</u>

# **Budgetary Highlights**

The Board budgeted total expenditures of \$586,000 and there were no budget amendments. During the year, actual revenues were slightly less than budgetary estimates due to differences in the number of new applications and renewals. However, actual expenditures were significantly less than budgetary estimates and the Board was able to end the year with an overall increase to its cash balance.

# **Capital Assets**

The Virginia Board of Accountancy's investment in capital assets at June 30, 2003, amounts to \$77,771 (net of accumulated depreciation). This amount consists of computer equipment and software costs for the Board's new computerized licensing system. Additional information on the Board's capital assets can be found in Note 5 on page 18 of this report.

# **Economic Factors and Next Year's Budget and Rates**

The Board of Accountancy's major source of revenue is license fees. The number of individuals holding CPA licenses and the number of licensed firms increased in the current fiscal year.

# **CPA License Holders And Firm Registrations**

Individuals Firms	2003 16,169 	2002 16,055 1,288
Total	17.499	17.293

The number of new applications increased in the current year. The Uniform CPA examination will be converted from a paper exam to a computer-based exam in early 2004. New applications are expected to continue increasing in the next fiscal year with the advent of the new exam format.

# License Fees Processed

	<u>2003</u>	<u>2002</u>
New applications:		
Individuals	880	891
Firms	330	136
Endorsement certificates	<u> 182</u>	<u>174</u>
Total	<u>1,392</u>	<u>1,201</u>
Renewals and reinstatements:		
Individuals	13,640	13,912
Firms	240	980
Reinstatements	282	260
Total	14,162	<u>15,152</u>

Fee increases are anticipated in the next fiscal year when the Board implements its new regulations. Although the Board currently has a healthy fund balance, a major enforcement case could easily consume the Board's cash reserves. The fee increases will be used to create a reserve that will be used to fund future enforcement cases.

All of these factors were considered in preparing the Virginia Board of Accountancy's budget for the upcoming fiscal year.

# VIRGINIA BOARD OF ACCOUNTANCY STATEMENT OF NET ASSETS

Change in fund balance on modified accrual basis (page 13)	\$ 182,910	\$ 614,911

# THE VIRGINIA BOARD OF ACCOUNTANCY

# **NOTES TO FINANCIAL STATEMENTS**

# AS OF JUNE 30, 2003

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

# A. Reporting Entity

The Virginia Board of Accountancy regulates the practice of accounting in Virginia, protecting and serving the citizens of the Commonwealth by administering the laws and regulations for their health, safety, and welfare. The Board's major activities include reviewing applications to ensure applicants are competent to enter the profession; administering the Uniform CPA exam; determining continued qualifications for licensure; conducting audits of continuing professional education; and adjudicating enforcement cases and disciplining those who do not follow acceptable, ethical, or professional standards.

A separate report is prepared for the Commonwealth of Virginia, which includes all agencies, boards, commissions, and authorities over which the Commonwealth exercises or has the ability to exercise oversight authority. The Virginia Board of Accountancy is an agency of the Commonwealth of Virginia and is included in the basic financial statements of the Commonwealth.

# B. Fund Accounting

The activities of the Virginia Board of Accountancy are accounted for in a special revenue fund. The special revenue fund is used to account for transactions related to resources received and used for restricted or specific purposes.

# C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Entity-Wide Financial Statements – The entity-wide financial statements (i.e., the Statement of Net Assets and the Statement of Activities) report information on the Virginia Board of Accountancy's financial activities. The Statement of Activities demonstrates the degree to which direct expenses are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific program. Program revenues include charges to regulants.

The entity-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recognized when a liability is incurred, regardless of the timing of related cash flows. License fees are recognized as revenue when received.

Governmental Fund Financial Statements – The financial statements also include separate fund financial statements. The fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Virginia Board of Accountancy considers revenues to be available if they are collected within 60 days of the

end of the current fiscal year. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, expenditures related to compensated absences are recorded only when payment is due.

# 2. BUDGETARY INFORMATION

Budgetary amounts shown in the Statement of Revenues, Expenditures, and Changes in Fund Balances – Budget and Actual represent the original budgeted amounts. There were no budget amendments or supplemental appropriations in the current fiscal year. The Virginia Board of Accountancy's budget is prepared principally on a cash basis and represents appropriations as authorized by the General Assembly. Unexpended appropriations at the end of the fiscal year generally lapse. However, they may be reappropriated for expenditure in the following fiscal year. The Governor, as required by the <u>Code of Virginia</u>, submits a budget composed of all proposed expenditures for the state, and of estimated revenues and borrowing for a biennium, to the General Assembly.

The budget is prepared on a biennial basis; however, the budget contains separate appropriations for each year within the biennial budget, as approved by the General Assembly and signed into law by the Governor. For management control purposes, the budget is controlled at the program level.

Appropriations of special revenue funds may allow expenditures in excess of the original appropriations to the extent that revenues of the funds exceed original budget estimates and such additional expenditures are approved by the Governor through supplemental appropriations.

#### 3. CASH WITH THE TREASURER OF VIRGINIA

All state funds of the Virginia Board of Accountancy are held by the Treasurer of Virginia, pursuant to Section 2.2-1800, <u>Code of Virginia</u>, who is responsible for the collection, disbursement, custody, and investment of state funds. Each fund's equity in pooled state funds is reported as "Cash Held by the Treasurer of Virginia" and is not categorized as to credit risk.

# 4. RECEIVABLES AND DUE TO THE STATE LITERARY FUND

Receivables consist of penalties receivable from regulants found guilty of violating the Board's statutes or regulations. The proceeds from these penalties are deposited into the state's Literary Fund in accordance with Section 19.2-353, <u>Code of Virginia</u>. Consequently, receivables are offset by a corresponding amount Due to the State Literary Fund and are not available to meet the Board's current operating needs. At June 30, 2003, the amount Due to the State Literary Fund for collections on monetary penalties was \$3,800.

Gross receivables	June 30, 2003 \$250
Less: Allowance for doubtful accounts	
Net receivables	\$250

# 5. EQUIPMENT

The following presents capital activity for the year ended June 30, 2003:

	Balance at			Balance at
	July 1, 2002	<u>Acquired</u>	<b>Deleted</b>	June 30,2003
Equipment	\$ 98,612	\$13,262	\$ -	\$111,874
Less accumulated depreciation	(13,048)	(21,055)		(34,103)
Equipment, net	<u>\$ 85,564</u>	<u>(7,793)</u>	<u>\$ -</u>	<u>\$ 77,771</u>

The Board capitalizes all equipment that has an initial, individual cost of \$5,000 and an estimated useful life in excess of one year. The Board also capitalizes computer software acquired or developed for internal use, which is included in the equipment amount above. Equipment is reported at historical cost and is set up in a comprehensive fixed asset system at the time of purchase.

Depreciation of the cost of equipment and software costs is provided on a straight-line basis over estimated lives of seven years and five years, respectively.

# 6. TRANSFERS FROM OTHER STATE AGENCIES

The Board became an independent state agency and separate supervisory board effective July 1, 2001. Prior to this date, the Board was administered by the Department of Professional and Occupational Regulation. The Department of Professional and Occupational Regulation transferred \$72,214 to the Virginia Board of Accountancy during the year ended June 30, 2003, to reimburse them for transition costs that occurred when the Board became a separate state agency.

# 7. LEASE COMMITMENTS

The Virginia Board of Accountancy is committed under an operating lease for office space. The lease is for a three-year term ending July 14, 2004. The Virginia Board of Accountancy expects that in the normal course of business, the lease will be replaced by a similar operating lease. Rental expense for the fiscal year ended June 30, 2003, was \$18,065.

A summary of future obligations under lease agreements as of June 30, 2003, follows.

Year Ending June 30,	<u>Amount</u>
2004	\$16,907

# 8. COMPENSATED ABSENCES

Compensated absences reflected in the Statement of Net Assets represent the amounts of vacation, sick, and compensatory leave earned by the Board's employees, but not taken at June 30, 2003. The amount reflects all earned vacation, sick, and compensatory leave payable under the Commonwealth of Virginia's leave payout policies. Information on the Commonwealth's leave payout policies is available at the statewide level in the Commonwealth of Virginia's Comprehensive Annual Financial Report.

Balance at			Balance at
June 30, 2002	<u>Increases</u>	<u>Decreases</u>	June 30, 2003
\$3,234	\$4,220	\$(4,199)	\$3,255

# 9. PENSION PLAN AND OTHER POST RETIREMENT BENEFITS

The Board's employees are employees of the Commonwealth of Virginia. The employees participate in a defined benefit plan administered by the Virginia Retirement System (VRS). The VRS also administers life insurance and health-related plans for retired employees. Information related to these plans is available on a statewide level only in the Commonwealth of Virginia's Comprehensive Annual Financial Report. The Commonwealth, not the Board, has overall responsibility for contributions to these plans.

# 10. RISK MANAGEMENT

The Board is exposed to various risks of loss related to torts; theft or damage to, and destruction of assets; errors and omissions; non-performance of duty; injuries to employees; and natural disasters. The Virginia Board of Accountancy participates in insurance plans maintained by the Commonwealth of Virginia. The state employee health care and worker's compensation plans are administered by the Department of Human Resource Management and the risk management insurance plans are administered by the Department of Treasury, Division of Risk Management. Risk management insurance includes property, general liability, faithful performance of duty bond, and automobile plans. The Board pays premiums to each of these Departments for its insurance coverage. Information relating to the Commonwealth's insurance plans is available at the statewide level in the Commonwealth of Virginia's Comprehensive Annual Financial Report.

# THE VIRGINIA BOARD OF ACCOUNTANCY Richmond, Virginia

As of June 30, 2003

The Board consists of seven members: one public member who may be an accountant, but does not hold a CPA certificate; one educator in the field of accounting; and five certified public accountants. The Governor appoints each member to a term of four years.
